

# UltraWire 2020

## Workshop on Commercialisation of Ultra-Conductive Composites

### Announcement ZOOM Meeting v2.5

2<sup>nd</sup> July 2020

Cambridge Nanomaterials Technology Ltd is organising the **UltraWire Workshop 2020** in order to support commercialisation of ultra-conductive materials including nano-carbon and metal-based composites technologies for a number of applications, such as; electrical energy transmission and transport by bringing together technology development leaders and industrial end-users. The UltraWire 2020 Workshop would be an opportunity to follow and learn about progress in the development of nano-carbon wire technology and other technologies, using nanomaterials for improving electrical conductivity properties. It would also be a platform to exchange experience for all technology developers in industry and researchers in academia. This is also an opportunity to link the workshop with other activities related to the use of nano-materials and metal composites in additive manufacturing, and other applications.

*Due to the COVID-19 pandemic, the workshop has been rescheduled as a virtual workshop, using ZOOM online platform, with the objective to facilitate remote participation.*

We have confirmed participation from speakers and guests coming from organisations such as: **Whirlpool Corporation, BAE Systems Energy Safety Research Institute (ESRI), MBDA, Coatema Coating Machinery, DZP Technologies, Haydale Composites Solutions, SENERGY, Q5D, TWI TMBK Partners Sp. z o.o, Graphene Laboratories, Inc. and Nanoscience Centre-University of Cambridge**, among others.

We have organised five UltraWire workshops so far. The first ones were organised during the UltraWire project ([www.ultrawire.eu](http://www.ultrawire.eu)) in order to help exploitation and dissemination of results of the project. The last three were organised after the project ended in order to bring the researchers from the project and outside the project together, to help further commercialisation of relevant technologies. The workshops have been organised in Cambridge, UK and Leuven, Belgium. Some of the participating organisations from the past five Workshops have come from:

## UltraWire Workshops

### Participating Organisations

2015 – 2016 – 2017 – 2018 – 2019

If you are interested in speaking or participating at the **UltraWire Workshop 2020**, you could get more information about the workshop including registration form and agenda by sending an email to [info@ultrawire.eu](mailto:info@ultrawire.eu) or [info@cnt-ltd.co.uk](mailto:info@cnt-ltd.co.uk)

### Registration fees:

- Delegate Registration: **£250** (+VAT – UK delegates only)
- Early bird delegate discount fee: **£200** (+VAT – UK delegates only) *if registered by 25<sup>th</sup> June 2020. (**Extended Deadline**)*

### Registration fees include:

- Admission to the UltraWire Online workshop
- Workshop related documents
