

# UltraWire 2021

## Conductive Materials Solutions Workshop

### Announcement Online Meeting

15<sup>th</sup> July 2021

Cambridge Nanomaterials Technology Ltd is organising the **UltraWire Workshop 2020** in order to support commercialisation of new technologies providing conductive materials solutions, including nano-carbon and metal-based composite materials for a number of applications, such as; electrical energy transmission, structural health monitoring and light-weight transport by bringing together technology development leaders and industrial end-users. The UltraWire 2021 Workshop would be an opportunity to learn about progress in the development of nano-carbon wire technologies for improving electrical conductivity properties. It would also be a platform to exchange experience for all technology developers in industry and researchers in academia. This is also an opportunity to link the workshop with other activities related to use of nano-carbon and metal based composite materials applications.

We have organised 6 UltraWire workshops so far ([www.ultrawire.eu/workshops](http://www.ultrawire.eu/workshops)). The first ones were organised during the UltraWire project in order to help exploitation and dissemination of results of the project. The last four were organised after the project ended in order to bring the researchers from the project and outside the project together, to help further commercialisation of relevant technologies. The workshops have been organised in Cambridge -UK, Leuven – Belgium, and online. The UltraWire 2021 has a virtual exhibition at: [www.ultrawire.eu/expo](http://www.ultrawire.eu/expo) Some of the participating organisations from the Workshops have come from:

## UltraWire Workshops

### Participating Organisations

2015 – 2016 – 2017 – 2018 – 2019 - 2020

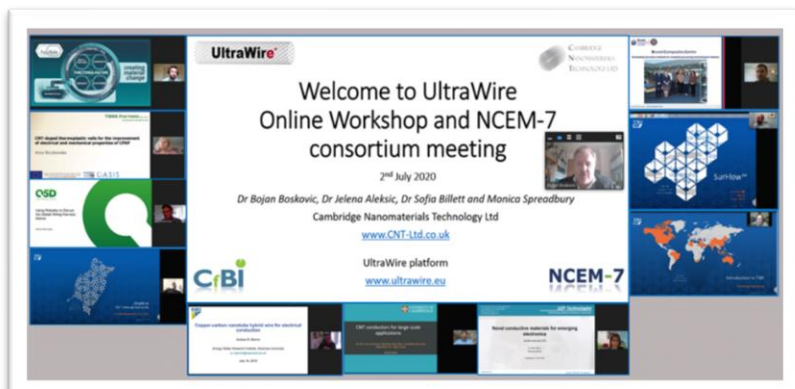

If you are interested in speaking, participating and/or exhibiting at the **UltraWire Workshop 2021** you get more information about the workshop including registration form and agenda by sending an email to [info@ultrawire.eu](mailto:info@ultrawire.eu) or [info@cnt-ltd.co.uk](mailto:info@cnt-ltd.co.uk)
